CIRCULAR (Class X)

Dear Parent,

Greetings of the day!

Kindly be informed that the CBSE Board provides two levels of examination in Mathematics Standard & Basic for Class X students. Students appearing for the Board Examination in 2021 must opt for any one level as per their choice. The details of the scheme are as follows:

- The Board Examination question paper in Standard Mathematics will be of Standard level and Mathematics Basic would be of an easier level.
- However, the syllabus, classroom teaching and internal assessment will have no difference.
- Standard Mathematics is meant for students who wish to opt for Standard Mathematics at the Senior Secondary level and the Basic Mathematics is for those students who are not keen to pursue Mathematics at higher levels or are interested only in the Applied Mathematics at the Senior Secondary level.
- For further details and clarifications please visit www.cbseacademic.nic.in or refer to Circular No: F1002/CBSE/Dir/(Acad)/Mathematics/2019, dated 10 January 2019.
- You are requested to fill in the Google form and submit your ward's choice latest by Wednesday, 16th September 2020 for the purpose of CBSE registration.
- Please note that once the choice is made, no correction is possible at a later stage.

The link to the Google form will be sent along with this circular.

Thanks & Regards,

Alexander Gee Varghese
Acting Principal
