CIRCULAR

(to the parents of students in classes IX and X)

Dear Parent

Greetings from ISD!

I trust you are staying safe and healthy with your family.

This is to bring to your kind notice the role and importance of year-long Assessments (Internal Assessments, Periodic Tests, Half Yearly Examination, Annual Exam/Model Examination I & II) in classes IX and X.

The one-time year-end examination for these classes is complimented and supplemented with Internal Assessments (IA) that assess your ward in a diverse manner at different times and also examine a broad range of curriculum objectives. The Internal Assessments, also called school-based assessments, play the role of providing a complete picture of your ward's abilities and progress over a period of time, enabling him/her develop strategies to improve learning. The other tests/exams tend to follow a pattern and have a gradually increasing portion of syllabus content preparing your ward for final summative exams in a more confident manner.

The School has been enforcing the importance of these assessments time and again. However, it has been noticed that many students do not pay attention and most of the time do not give due importance to these assessments leading to poor academic performance.

The parents and the teachers work in partnership for the all-round development of children. The School extends all required help and support to your ward to prepare for these assessments; subject teachers work beyond school hours to guide and clarify the doubts so as to help them score well. Hence, it is sincerely advised to take note of the prominence of these assessments and prepare them well to enhance their academic performance.

It is proposed to have admission to Class XI (within ISD) for the Academic Year 2022-23 based on the above described overall assessments. The weightage of various assessments carried out throughout the year to arrive at overall academic performance of the student will be communicated to you, at earliest.

I request you to explain the above to your ward by emphasizing the importance of various assessments/tests which have to be taken seriously right from the very first assessment as the performance in each of these assessments counts towards the final tabulation of the annual performance at the end of the Academic Year.

Anticipating your continued support,

Warm regards

Amar Srivastava
Principal
