CIRCULAR (KG to XII)

Dear Parents,

Greetings from ISD!

We would like to humbly remind you of the importance of safety precautions when it rains. Rainfall presents various hazards that require careful consideration. Please take note of the following safety guidelines issued by the authorities:

Slippery Surfaces: Wet roads and footpaths can become slippery, increasing the risk of falls. Please walk with caution.

Potential Flooding: Heavy rain can lead to flooding of wadis. Avoid walking or driving through flooded areas.

Electrical Hazards: Avoid touching electrical appliances with wet hands.

Driving Precautions: Exercise caution when driving in heavy rain. Slow down and be mindful.

Emergency Preparedness: Always be prepared for unexpected situations. Carry a charged mobile phone and have a plan for contacting emergency services if needed.

Visibility Concerns: Reduced visibility during heavy rainfall poses risks for drivers and pedestrians. Ensure vehicle headlights are on and maintain safe distances.

In addition to these general safety guidelines, we would like to emphasize the importance of avoiding crossing a wadi during periods of rainfall. Moreover, it is considered a serious offense under Oman Government guidelines. We urge parents to use the newly constructed bridge to access the Primary or Senior sections of the school, whichever is applicable.

We kindly request all parents to adhere to these safety guidelines and prioritize the well-being of our school community.

Regards

Amar Srivastava
Principal
